- There is a large qualitative literature on what happened through the GATT
  - Go back and list some of the books we read on, e.g., each round
  - “Tariff negotiations and renegotiations under the GATT and the WTO”
    - \* What is Matt’s status with this?
  - USITC history papers (two of them)
  - Irwin’s big book
    - \* 1994 Irwin NBER working paper
    - \* Irwin (2020)?
  - Petros’ chapter on tariffs
- Three strands of quantitative literature
  - Old stuff
    - \* Krause 1962, etc
      - Go through reference list
    - \* Dur, Balassa, Kreinin
  - BSY (is there a second one?)
  - Bown and Irwin (2017)
  - But what about “30 years of trade policy”?
- Need to include TOT literature if going to include TOT analysis
